

<b>KSS AHSN &amp; BI Analytics Conference Evaluation feedback</b>			
<b>Name (optional):</b>		<b>Organisation:</b>	

25 responses / 85 attendees

<b>Evaluation</b>					
We would be grateful if you could take 10 minutes to complete this form.					
Please circle the appropriate response					
<b>1. My understanding of datasets is now...</b>					
Much improved – <b>13%</b>	Slightly improved – <b>54%</b>	Unchanged: <b>I already had</b> a good understanding – <b>33%</b>	Unchanged: <b>I still don't have</b> a good understanding	Slightly worse	Much worse
<b>2. My understanding of how data can be used to drive improvement is now...</b>					
Much improved – <b>20%</b>	Slightly improved – <b>60%</b>	Unchanged: <b>I already had</b> a good understanding – <b>20%</b>	Unchanged: <b>I still don't have</b> a good understanding	Slightly worse	Much worse
<b>3. My understanding of how modelling has helped within the region is now...</b>					
Much improved – <b>29%</b>	Slightly improved – <b>50%</b>	Unchanged: <b>I already had</b> a good understanding – <b>13%</b>	Unchanged: <b>I still don't have</b> a good understanding – <b>8%</b>	Slightly worse	Much worse
<b>4. My understanding of the challenges and opportunities within population health management is now...</b>					
Much improved – <b>32%</b>	Slightly improved – <b>52%</b>	Unchanged: <b>I already had</b> a good understanding – <b>12%</b>	Unchanged: <b>I still don't have</b> a good understanding – <b>4%</b>	Slightly worse	Much worse

<b>Feedback</b>					
<ul style="list-style-type: none"> <li>- Interesting to see how much progress has been achieved at PCN level or PHM</li> <li>- Very useful</li> <li>- Great venue, engaging speakers, good variety of break out options</li> </ul>					
<b>5. The sessions presented were relevant and useful</b>					
National policy perspective on population health management (Bevleigh Evans and Dr Dan Alton)	Strongly agree – <b>25%</b>	Agree – <b>71%</b>	Neither -	Disagree – <b>4%</b>	Strongly Disagree

Use of the Kent integrated Dataset to develop a community services model for CCG allocations  (Dr Heather Ross and Darren Williams)	Strongly agree – <b>30%</b>	Agree – <b>48%</b>	Neither – <b>22%</b>	Disagree	Strongly Disagree
What data is needed to develop new pathways and how these are then used to actually change and improve care  (Dr Chris Farmer)	Strongly agree – <b>50%</b>	Agree - <b>42%</b>	Neither - <b>8%</b>	Disagree	Strongly Disagree
Creating a controlled environment for analytics  (Alan Day)	Strongly agree - <b>31%</b>	Agree - <b>56%</b>	Neither - <b>13%</b>	Disagree	Strongly Disagree
Explaining the decline in performance against the 4-hour A&E target  (Steve Wyatt)	Strongly agree - <b>64%</b>	Agree - <b>36%</b>	Neither	Disagree	Strongly Disagree
Giving analysts time to analyse  (Julie George)	Strongly agree - <b>50%</b>	Agree - <b>43%</b>	Neither - <b>7%</b>	Disagree	Strongly Disagree
Sussex Integrated Dataset (SID)  (Mark Watson)	Strongly agree - <b>43%</b>	Agree - <b>57%</b>	Neither	Disagree	Strongly Disagree
How modelling has helped in the Kent & Medway STP LTP submission  (Sarah Overton and Peter Lacey)	Strongly agree - <b>22%</b>	Agree - <b>67%</b>	Neither - <b>11%</b>	Disagree	Strongly Disagree

#### 6. The case studies presented were relevant and useful

Strongly agree - **52%**    Agree - **48%**    Neither    Disagree    Strongly Disagree

#### 7. The importance of data came through strongly

Strongly agree - **67%**    Agree - **33%**    Neither    Disagree    Strongly Disagree

Please share any thoughts below on how well you consider the importance of data was covered during the day:

- Great that it emphasised complementary aspects to 'data'
- How to determine the right question; - information/data flow & modelling; - risk & absence of data; - attribution of /great examples of benefits via case studies; + human intervention/influence through networks & communities of interest
- Loud and clear – especially access to privacy data!
- Importance of good data emphasised & need for consistent data collection
- Useful presentations for planning in our organisations
- It would be great to have more of the 'so what' as tangible benefits e.g. we used data to do 'x' which save us £x, allowed us to track 'x', reduced admissions to hospital of 'y' etc. as this is the piece that report NHS organisations work

<b>8. Did the conference meet your expectations?</b>	<b>Yes - 100%</b>	No
--	-----------------------	----

Please state how:

- Better insight to the different datasets and how these can be used to meet patient needs
- Great session, thanks for hosting
- Open discussions with whole system to share learning
- Good diversity of people and presentations
- Surpassed expectations – a very good range of speakers. Topics were excellent and important; the day has given me many questions to take back to my organisation
- More applications / pics would be great, more workstations
- Very enjoyable, thank you
- Yes – good to meet colleagues in person, to talk to the experts and ask questions we wouldn't put in writing
- Wider perspective from different stakeholder/interest groups
- It did, excellent case studies and insights
- Provided further insight into the opportunity for use of data in the future, and what is missing!
- Covered a wide range of topics
- Inspirational talks
- Exceeded my expectations as was relevant and great mix of people in the audience

## Venue

Finally, please indicate how satisfied you were with the following aspects of the day:

### Location

	Very satisfied -	Satisfied -	Neither satisfied nor dissatisfied	Dissatisfied	Very dissatisfied
<b>Venue facilities</b>	<b>74%</b>	<b>26%</b>			
<b>Catering</b>	<b>69%</b>	<b>32%</b>			
<b>Advance information received from KSS AHSN &amp; BI</b>	<b>61%</b>	<b>39%</b>			
<b>The venue staff</b>	<b>65%</b>	<b>35%</b>			

Please continue your answers or add any additional comments here if necessary

- Roving mic for audience questions
- Vet presentations for e.g. size of text
- Speakers to use the mic provided
- Presentation slides too busy – hard to read /see the smaller print
- Need to review timings – allow time for questions
- Ensure people are back in the room in a timely manner to ensure day runs to time
- Very helpful stay, thank you!
- Dan Alton presentation excellent, Beveleigh Evans more confusing and unclear
- Great content – Use of the Kent Integrated Dataset etc.
- Lunch was great, venue too. Lapel mics could improve sound
- Need to have screens near back of Senate Hall as too difficult to see slides presented at the front / or have minimum font size (but this would reduce slide content)
- Need to think about accessibility – get the mic out to participants (questions)
- Otherwise, superb event and plenty to take back to the team
- What's next? – Wave2 update? – ICS development? – Long term plan & annual operating model?
- Are there opportunities to print out future events?

- How to access Privacy Data? Some assistance on that would be helpful for guidance
- Very well run; easy registration process; introduction to different groups/organisations would have been helpful to understand skillset/knowledge base; some of the sessions were above my knowledge base so were slightly lost on me but were probably very useful for others; very informative

Thank you for completing this evaluation form.

Please leave it on the registration desk before you leave
