

PRESENTATION

# Local and regional cancer patient tracking

A yellow decorative line consisting of three connected arcs, each starting and ending at a small yellow circle. The line starts with a small circle on the left, arcs up and over the text, then arcs down and under the text, ending with a small circle on the right.

**BEAUTIFUL  
INFORMATION**

# Cancer patient tracking

System agnostic: working with InfoFlex and Somerset locally (Trust) and regionally (across a cancer network/alliance)

A flexible framework so it can be configured to your requirements

Available on any device to any clinician or manager across networks

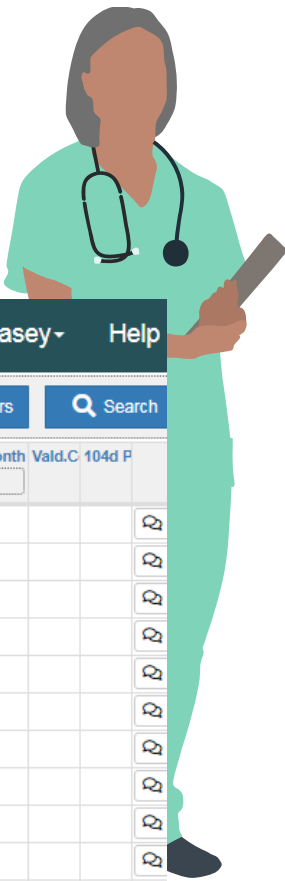

Compatible with other Beautiful Information solutions

# Cancer data process (working with Somerset or Infoflex)

# Cancer network PTL 62-day pathway demo

Cancer Network PTL - Demonstration - 62 Day Cancer PTL																		emma.creasey - Help

- Displays key steps in the patient's cancer pathway. Column headers with fields allow users to filter.
- Highlights days wait, inter-provider transfers and patients with faster diagnosis completed.
- Right-hand columns are manually updated, via the PTL, for staff tracking

# PTL Features

The left-hand arrow opens up a window to show full details, and allow users to add comments, statuses, etc
